#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Amendment*

1. Receipt is acknowledged of the amendment filed on July 2, 2004. In the amendment  
5 claims 1, 10, 12-14 were amended. Currently, claims 1-15 remain for examination.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

10 A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Schilling (US  
15 5,359,182, hereinafter “Schilling”).

Schilling teaches a smart card reader system (see abstract; col. 2, lines 59+) comprising a smart card reader 82, which communicates with base station in wireless manner (col. 4, lines 67). As shown in figure 5, the radio unit comprises a transceiver 202, reader 208, and controller 204. The transceiver 202, via controller 204, interfaces with other reader parts (col. 6, lines 5+).

- 20 Re claim 11, although Schilling does not use the term “Transmission Protocol Data Unit”, the radio unit communicates with the base station in wireless manner (see figure 3; col. 5, lines 24+), which would inherently require a communication protocol.

### *Allowable Subject Matter*

Art Unit: 2876

4. Claims 1-9, 14 and 15 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter: the claims are directed at a smart card reader and the method for communicating information in a system comprising a wireless communication terminal and a smart card reader. The card reader is comprised of a card reader part, and a short range communication part which includes a processing unit for controlling the short-range communication. The processing unit controls the card reader as well. These features, in the Examiner's view, are disclosed in the Schilling patent as indicated above. The cited references, however, taken alone or in combinations, fail to suggest or teach such card reader and the card reader system further comprising short range communication processing unit converting the application layer level command into a transmission layer level command for a transfer to be performed to the smart card as set forth in the claims.

#### ***Response to Remarks***

6. Applicant's remarks filed on July 2, 2004 have been carefully considered. Although Examiner still believes that the Ludwig patent discloses a smart card reader (in the form of a PC) reading a smart card – PCMCIA card which communicates as a node of wireless communication network, the Ludwig patent does not disclose the subject matter in an explicit manner for the Applicant. Accordingly, this Office Action, based on additional search and consideration, is made non-final.

#### ***Conclusion***

Art Unit: 2876

I. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Hazama (US 6,089,460); Mandelbaum (US 5,541,583) disclose smart card reader system. Applicant is respectfully suggested to carefully review these references.

II. Any inquiry concerning this communication or earlier communications from the examiner should be directed to *Ahshik Kim* whose telephone number is (571)272-2393. The examiner can normally be reached between the hours of 6:00AM to 3:00PM Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee, can be reached on (571)272-2398. The fax number directly to the Examiner is (571)273-2393. The fax phone number for this Group is (703)872-9306.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [ahshik.kim@uspto.gov].

*All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.*

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0956.
